

Jersey Liberal Conservatives

Please Vote **PHILIP BAILHACHE**

for Deputy of St Clement

**“Working Together
for Jersey”**

in coalition with:

Progress
THE PROGRESS PARTY

I am standing as a Jersey Liberal Conservative (JLC) candidate for deputy in St Clement where I was born and grew up. I am the Leader of the JLC. I am standing for election because I believe that the government has forgotten the foundations of Jersey's post-war success – financial prudence combined with a strong social conscience. We are spending too much money, and not devoting enough political energy to protecting the vulnerable in our society.

My career as a lawyer, judge and, more recently, politician, has reinforced my hope to see greater fairness in our community. I was elected as deputy for Grouville at the age of 26, served as a law officer of the Crown for 20 years, and was Bailiff between 1995 and 2009. I was a senator between 2011 and 2018 with responsibility for foreign affairs. I seek to return to politics with a passionate desire to put Jersey on a course which will lead to greater prosperity and happiness for all its people.

The JLC manifesto, prepared jointly with the Progress Party with which we are in coalition, can be found at www.jlc.je. I hope that you might find time to read it. It is not too long! We have tried to set out our policies clearly and succinctly. We have also set out our commitments to you, the voters, if we are elected and are able to form a government. In brief, our pledges are as follows.

We want to restore confidence in government by reinstating the direct accountability of civil servants to ministers, and by being more careful with our finances.

We want to make Jersey's government more open, transparent, and responsive.

We want to manage population growth and create housing solutions by getting more residents on the housing ladder and creating greater awareness of tenancy rights and obligations.

We are passionate about the protection of Jersey's stunningly beautiful environment. The challenges of climate change are urgent but need to be approached sensibly. We want to restore Jersey's precious biodiversity. The undeveloped rural parts of St Clement need special protection.

We seek to improve access to primary health care (GPs) by making it more affordable, and to reduce number of managers in the health service by focusing on the importance and value of frontline staff. We want to build a new hospital fit for Jersey in the right place at the right cost.

Education would become a high priority through greater investment and ensuring that all young people, regardless of background, can develop their talents to the full.

We want to reinvigorate the economy by ensuring that all policy decisions support a thriving business community and sustainable economic growth. We are keen to promote innovation and encourage digital businesses.

It would be an honour to represent St Clement. The JLC is in coalition with the Progress Party, but I am the only coalition candidate standing in this district. Please give me one of your votes.

The Jersey Liberal Conservatives and The Progress Party pledge to:

- **Restore Confidence in Government**

by restoring political responsibility, good governance and the accountability of the civil service to Ministers, by being prudent with our finances, and by making Jersey's government more effective, open, and responsive to the needs of Jersey people.

- **Reinvigorate the Economy**

by ensuring that all policy decisions support a thriving business community and sustainable economic growth. We will promote innovation and encourage digital business start-ups.

- **Manage Population Growth**

by developing policies to limit population growth, with the aim of having a stable working population in a balanced economy.

- **Protect the Environment**

by conserving the stunning beauty of Jersey's natural assets, by managing sensibly the challenges of climate change, and by restoring the Island's biodiversity.

- **Create Housing Solutions**

by providing more affordable homes to rent, by getting more people on the housing ladder through additional shared equity schemes, and by creating greater awareness of tenancy rights and obligations.

- **Create the Best Health Service**

which Jersey can afford, by focusing on the importance and value of frontline staff, by improving access to primary care, and by building a new hospital in the right place at the right cost.

- **Make Education a High Priority**

by investing in it and ensuring that all young people, regardless of background, can develop their talents to the full and enjoy fulfilling lives.
